

Blue Vigil RS1000 Power Tether for the M300

Unlimited Power – Uninterrupted Missions

Blue Vigil's RS1000 power tether system enables unlimited flight time for DJI's most powerful enterprise drone. Use it with 110 V / 220 V outlets, generators, inverters, and upconverters. The RS1000 base station can be used across your fleet by adding the appropriate air modules.

The RS1000 tether and Blue Vigil's fully integrated air module unit, developed specifically for the Matrice 300, keep your drone flying without having to replace/recharge batteries.

- **Easy to Transport**
- **Attach and Detach in Seconds**
- **Continuous Power**
- **Launch and Leave**
- **Unlimited Hover**
- **Responsive Tether**
